FIG. 16 is a cross-sectional view of the device in a closed position, showing the upper member 27 and the lower member 25 in contact with the substrate 1. The upper member 27 is shown with a hatched pattern, and the lower member 25 is shown with a cross-hatched pattern. The substrate 1 is shown with a solid pattern. The device is shown in a closed position, with the upper member 27 and the lower member 25 in contact with the substrate 1. The device is shown in a closed position, with the upper member 27 and the lower member 25 in contact with the substrate 1.
